Managed Account (MAC) Program - Term Sheet

TRADING PHILOSOPHY

The profitability and hence success of GAIN's Managed Account (MAC) program is based on the ability of key trading personnel to identify short- and medium-term opportunities in the major currency pairs. GAIN performs rigorous analysis and evaluates both technical and non-technical factors to find such opportunities. GAIN's strategy is to uncover numerous possible investments and derive the investments with the highest success probability. Senior trading staff reviews all possible investments before initiating a trade.

GAIN's MAC trading staff utilizes proprietary technical analysis processes to uncover "mini-trends" that may result in many modest gains over the course of a month. A mini-trend normally encompasses only a few days or may occur intraday. This approach is contrary to many traders who look for a few or a single mega-trend on which they may base their performance for a quarter or a whole year. GAIN utilizes multiple technical strategies that result in a composite signal as to the relative strength of particular mini-trends. Staff considers only the strongest signals from this group for investment. Once the MAC trading staff identifies a mini-trend with a good risk/reward profile, they execute the appropriate trades.

In addition to technical analysis, the MAC trading staff continuously monitors market sentiment in order to further refine the strongest mini-trends. Expertly gauging market sentiment is an important factor in optimizing performance. For example, in periods of highest uncertainty or overreaction to a news item, prices may be skewed to a point where an entry or exit may not be most advantageous to achieve maximum positive returns. It is in these instances where MAC trading staff optimizes technically based mini-trends by integrating expert judgment. Other times, staff may determine that market conditions or price action warrant a neutral position. This is an important component of GAIN's strategy, as staying "out of the market" during certain periods can be crucial to building steady, positive returns over time. These neutral positions will result in funds not being invested as the GAIN MAC book is neither long nor short for such period.

GAIN's ability to identify mini-trends can be an attractive alternative to the mega-trend approach, particularly during periods with no recognizable mega-trend. Conversely, in successfully identifying mini-trends, GAIN may also take advantage of a large portion of a mega-trend. In such instances, staff will re-initiate particular trades as long as the technical analysis process, coupled with the appropriate market sentiment, continue to produce the strongest signals. The use of leverage is another key component of GAIN's strategy. GAIN will increase the leverage of the MAC portfolio when a transaction exhibits a high probability of success and has a superior risk/return profile. The leverage on the MAC portfolio will range from zero to a maximum of 50:1.

Minimum Deposit: \$50,000

Available Strategies: **1) GAIN MAC:** Utilizes discretionary and technical trading disciplines combined with moderate leverage (typically between 1:1 and 5:1) to minimize return volatility. Ideal for those seeking a moderate risk, lower return investment strategy.

2) GAIN MAC Aggressive: a higher risk/higher reward alternative for investors seeking capital appreciation. GAIN MAC Aggressive appropriates higher leverage (typically between 1:1 and 10:1) and advanced short-term trading practices to capitalize on both market volatility and fundamental-based trends.

Deposits: At anytime. Deposits received prior to the first of the month will be invested at a money market rate of interest until the beginning of the next calendar month, at which time they are invested in the FX market, market permitting.

Requests received during the current calendar month are processed following the last trading day of that month. Fee Structure: An annualized 2% management fee is assessed monthly at a rate of 1/12^h of 2% of the closing balance following the final trading day of the month.

In addition, a performance fee equal to 20% of Trading Profits (Realized + Unrealized P/L) is assessed on a monthly basis. Trading Profits shall be determined from the end of the last month for which a performance fee was earned by GAIN Capital or, if no performance fee has been earned previously by GAIN Capital, from the date that the Account began to receive trading advice to the end of the month applicable to such Fee. **However, no subsequent performance fees will be payable to GAIN Capital until the Customer's Account has overcome any trading losses being carried forward to achieve new Trading Profits ("high water mark").**

GAIN Capital is not required to earn back previously paid performance fees. If any payment of performance fees is made to GAIN Capital because of Trading Profits and the Customer's Account thereafter fails to earn high water mark Trading Profits or experiences losses for any subsequent Fee Period, GAIN Capital will be entitled to retain such amounts of performance fees previously paid to it in respect of such Trading Profits.

Transaction Fee: In order to avoid any conflict of interest between GAIN's market making desk and our Managed Account (MAC) program, all trades for the MAC Program are executed directly through one of GAIN's bank liquidity providers. GAIN Capital charges a transaction fee of up to a ¼ pip per trade (approximately \$2 per lot).

The undersigned acknowledges having received, read and understood the GAIN Capital Managed Account Program Term Sheet and agrees to all of the provisions contained therein.

Risk Disclosure Statement

In consideration of GAIN Capital, Inc. ("GAIN Capital") agreeing to enter into Over-the-Counter ("OTC") Foreign Exchange Contracts on behalf of the undersigned (hereinafter referred to as the "Customer"), Customer acknowledges, understands and agrees that:

- 1. Trading Is Very Speculative and Risky.** Foreign Exchange Trading is highly speculative and is suitable only for those customers who (a) understand and are willing to assume the economic, legal and other risks involved, and (b) are financially able to assume losses significantly in excess of Margin or deposits. Foreign Exchange is not an appropriate investment for most retirement funds. Customer represents, warrants and agrees that Customer understands these risks; that Customer is willing and able, financially and otherwise, to assume the risks of Foreign Exchange Trading and that loss of Customer's entire Account Balance will not change Customer's life style.
- 2. High Leverage Can Lead To Quick Losses.** The leverage associated with Foreign Exchange Trading can result in significant losses due to price changes in Foreign Exchange Contracts and Cross Currency Contracts. Leveraged positions mean that a relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit: this may work against you as well as for you. There is even a chance you may sustain a total loss of funds.
- 3. Trading Decisions Are Based On Personal Judgments And Are Not Guaranteed.** The timing and direction of investment undertaken by GAIN Capital MAC trading staff is based solely on the judgment of said personnel. These market recommendations may or may not be consistent with the market positions or intentions of GAIN Capital, its affiliates and employees. Capital cannot and does not guarantee the accuracy or completeness thereof or represent that following such recommendations will result in profit to Customer's Account or reduce or eliminate the risk inherent in Foreign Exchange Trading
- 4. There is no Central Market or Clearinghouse Guarantee of Payment.** Foreign exchange trading conducted by GAIN Capital is not conducted on a regulated market or exchange. There is no clearinghouse and no guarantee by any other party. Customer must look only to GAIN Capital for performance on all Contracts in Customer's Account and for return of any Margin or Collateral. The insolvency of GAIN Capital or a default by GAIN Capital could cause Customer to lose the value of its Account and to suffer additional losses from Open Positions.
- 5. Past Performance is No Guarantee of Future Returns.** There is considerable exposure to risk in any foreign exchange transaction, including, but not limited to, the potential for changing political and/or economic conditions that may substantially affect the price or liquidity of a currency. The value of Customer's Account may vary or decline according to prevailing market conditions and although an account has previously obtained positive trading results, no assurance may be given that such will occur in the future.
- 6. No Guarantees Of Profit.** There are no guarantees of profit or freedom from loss in Foreign Exchange Trading. Customer has received no such guarantees from GAIN Capital or from any of its representatives. Customer is aware of the risks inherent in Foreign Exchange Trading and is financially able to bear such risks and withstand any losses incurred.

7. **Internet Trading.** Since GAIN Capital does not control signal power, its reception or routing via Internet, configuration of Customer's equipment or reliability of its connection, GAIN Capital shall not be liable for any claims, losses, damages, costs or expenses, including attorneys' fees, caused, directly or indirectly, by any breakdown or failure of any transmission or communication system or computer facility or trading or reporting software, whether belonging to GAIN Capital or Customer.)
8. **GAIN Capital Has Limited Liability.** GAIN Capital shall not be liable to Customer for any claims, losses, damages, costs or expenses, including attorneys' fees, caused, directly or indirectly, by any events, actions or omissions, without limitation, claims, losses, damages, costs and expenses, including attorneys' fees, resulting from civil unrest, war, insurrection, international intervention, governmental action (including, without limitation, exchange controls, forfeitures, nationalizations, devaluations), natural disasters, acts of God, market conditions, inability to communicate with any relevant person or any delay, disruption, failure or malfunction of any transmission or communication system or computer facility, whether belonging to GAIN Capital, Customer, any market, or any settlement or clearing system.
9. **Reporting Errors.** Customer must review and report immediately errors on statements. Failure to notify GAIN Capital immediately of any error or omission will bind Customer to the terms of such confirmation or statement, as the case may be.
10. **Diversification.** Your investment will not provide any benefit of diversification relative to your overall portfolio unless it is profitable and produces returns that are independent from the returns in your overall portfolio.
